-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Drawings

1. After careful reconsideration, the drawings are again objected to because all diagrammatic blocks and features in Figures 1-4, 6-8, and 11 are required to be distinctly labeled to indicate contents or function with legends (37 C.F.R. 1.83(a), 1.84(o)) since they are necessary for understanding of the drawing. Correction is required.

For example, Figure 1, elements 100 and 104 appear to be designating the same feature. Legends are therefore necessary to clarify the distinctions. Also, applicant asserts that certain elements are readily understandable. Examiner agrees that elements 231 and 241 are readily understood to be monitors. However, legends such as "graphics monitor" and "video monitor" would better illustrate the distinguishing features of the current invention. Other rectangular features in Figure 1 are not at all readily understandable.

Applicant asserts Figures 6-8 and 11 are merely screen shots. However, elements 610, 616, and 618, for example, appear to be designating the same screen. Therefore, Examiner feels that a concise legend is necessary to distinguish the different numbered elements.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2613

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-15 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Bowman et al (5,233,197) for the same reasons as set forth in Section 11 of the last office action, dated 6/3/05.

With respect to the new added claim 31, Bowman et al already discloses the concept of such altering step between two frames (see Abstract and col. 2).

Response to Arguments

4. Applicant's arguments filed 12/5/05 have been fully considered but they are not persuasive. Applicant asserts on pages 7-8 of the Remarks that Bowman et al describes acquiring images faster than the maximum acquisition rate. However, Examiner is unable to find such teaching in the reference. On the contrary, Examiner believes Bowman et al describes a system in which images are acquired at a **fast** acquisition rate. Nevertheless, one of ordinary skill in the art would recognize that the system of Bowman et al could not possibly be acquiring images faster than the maximum image acquisition rate. If that were the case, the so-called maximum rate would not be considered **maximum**.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2613

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
